Annie Moses
Assistant Superintendent
Township of Union Public Schools
2369 Morris Avenue
Union, NJ 07083

PROGRAM CODE: C-NJ09-10375-16

Dear Annie,

I look forward to the Camp Invention program at Hannah Caldwell Elementary, beginning July 15, 2016. I would like to take this opportunity to confirm our intentions and further explain each of our roles to ensure that your program is a success.

Invent Now, Inc. (IN) will provide the administrative and curriculum manuals, materials, T-shirts, staff training, marketing flyers, media exposure, and centralized registration for the program. The administrative and curriculum manuals and materials are the intellectual property of IN and must be returned at the close of the program. All curriculum manuals and training materials should be treated as confidential. Hannah Caldwell Elementary and Township of Union School District will use these manuals and materials exclusively for the Camp Invention program and shall not alter, copy, or distribute the manuals and materials in any format.

IN will determine the number of staff positions based on the number of participants registered and will run a program with as few as 35 participants and as many as 110. IN will compensate the Director and Instructors as independent contractors.

IN will provide general liability insurance covering program activities that protects IN, Hannah Caldwell Elementary and Township of Union School District against claims for bodily injury, personal injury, and property damage based upon or arising from the program.

Township of Union School District will provide the physical space, including five classrooms; a large multi-purpose or cafeteria space that can accommodate up to 200 people; access to restrooms, phone, and water; and use of outside play areas between 8:00am to 4:30pm during the week of the program. Before the program starts, you will receive the materials for setting up and organization. The Director will assist in marketing the program within the student population, including, but not limited to, the distribution of flyers in accordance with district policies.

Again, I am excited about your decision to bring the Camp Invention program to Township of Union School District, and I look forward to working closely with you and your staff to make it a success. If this letter does not accurately reflect your understanding in any way, please let me know.

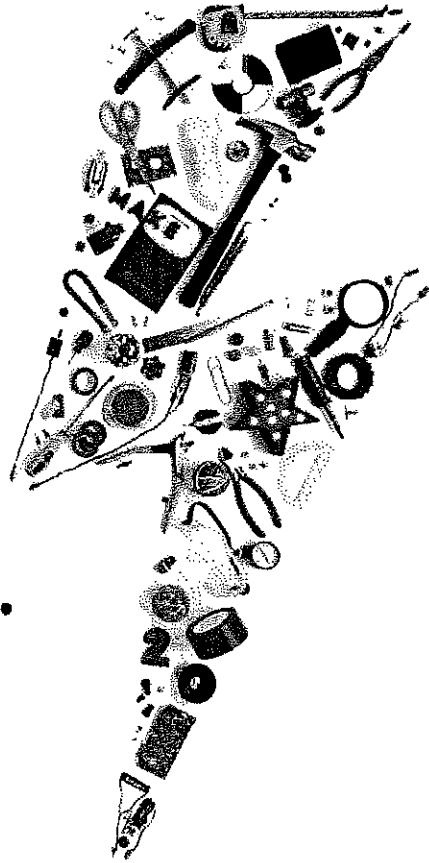

Sincerely,

Lori Byrne
Regional Representative

Invention Project

Camp Invention

Overview:

Invent Now was founded in 1973 as the National Inventors Hall of Fame, now a supporting organization, with the mission of recognizing and honoring the great inventors of our time. Over the past 42 years, we have expanded the mission by creating programs that have encouraged over 2 million children, teachers, parents, college students and independent inventors to explore science, technology, and their own innate creativity and inventiveness.

All Invent Now programs utilize creative teaching practices to foster innovation by bringing creativity-based programming into classrooms across the country during out-of-school time, helping educators give children the opportunity to apply classroom learning through a practical, hands-on approach. Invent Now, Inc. believes that STEM (Science, Technology, Engineering and Math) and 21st century skills play a vital role in students' cognitive development. The Camp Invention program and Invention Project program provide a unique learning environment for elementary-aged children, and middle school-aged children, as well as substantial professional development opportunities for instructors through its inquiry-based approach.

Scope of Project:

Invent Now will provide either an **innovative traditional Camp Invention program for Township of Union School District**, for a determined number of students to be served during the **summer 2016**.

Teacher's Camp Invention experience:

- Excites teachers about teaching science
- Increases teachers' interest in STEM
- Gives teachers experience using scientific inquiry and engineering design in teaching
- Provides professional development for teachers and hands-on application of the training during the program
- Impacts classroom instruction
- Allows them to see students' progress and engagement in a different setting

Camp Invention Traditional Program

Camp Invention heads into its 26th summer in 2016 and is the cornerstone of our K-12 educational programs serving children in grades one through six. Inspired by our inductees and designed to reflect the spirit of innovation, our Camp Invention program nurtures a child’s curiosity into big ideas through immersive curricula that encourages creativity and innovation, while providing a foundation for Intellectual Property Literacy™. Our unique model of facilitating our programs through local educators continues to set us apart as we provide authentic professional development to thousands of teachers each summer who, in turn, return to their classrooms with newfound strategies, impacting exponential numbers of students each school year.

Format:

The Camp Invention program is a summer enrichment program that partners with schools across the country to reinforce the traditional school year with science, technology, engineering, and math (STEM) activities through inquiry-based, hands-on activities.

Pricing Table

	Per Student	Total
Camp Invention		
• Materials for up to 210 participants		
• Complete curricula and lesson plans for 32.5 hours of instruction per program		
• Staff training and compensation
