Congratulations! The competitive grant application submitted by your agency for the Climate Literacy for Comm Resilience Comp grant program has been read and evaluated by a panel of reviewers and has been determined to be eligible for award. The application will now begin the pre-award process. To initiate this process, please access the EWEG system, click on the radio button next to your original application and then click on 'Create Amendment.' Once created, submit the amendment to the department. You will not be able to make changes on any of the application (amendment) pages at this time. Questions should be directed to the sponsoring program office or to the EWEG Help Desk via reply to this email.
