						There are two events that go together that I would like to attend. They are career fairs in trades for students. With the students I teach and my commitment to Work-Based Learning and Career and Technical Education, I am looking to attend these career fairs. I have scheduled meetings with the people who have organized them. I would ultimately work on having the school district partner with local businesses and trades and bring a trade career fair to Union High School. The two events go hand in hand, so I am submitting them together. There is no cost for either event for registration. I am putting the cost for travel, hotel, and meals simply because the forms asks for it. But, even if the payment gets denied I would be happy to attend the event and pay for my own hotel, travel, and meals.
