To Whom It May Concern,

High Focus Centers is a state-licensed Joint Commission-accredited substance abuse treatment center that has been providing services for over 20 years to adults and adolescents with mental health and substance abuse issues. Our clinicians are all licensed employees who have many years of experience working with this specialized population. All patients will complete a full bio-psychosocial assessment, which takes approximately 1.5-2 hours and will determine an appropriate level of care. The evaluation fee is \$150 with a charge of \$50 for the urine drug screen; however we are in network with almost all major insurances companies.

If you need any additional information, please feel free to call me at 908-956-0908.

Sincerely,

*Stacy Santacroce, LCSW*
