PURPOSE

The purpose of this program is to teach skills related to seven (7) core areas (Transition Planning/Visioning, Health/Behavioral Health, Housing, Legal/Financial, Social, Self-Direction, and Post-Secondary Education/Employment). The outcomes of participation in the program will provide students and their families with the experience, practice, and understanding the importance of creating a plan/vision for their life after they leave school. *Planning for Adult Life* includes step by step timelines, guides and other resources to assist students in making decisions on where they want to work, where they want to live, who they want to be socially, what legal decisions will they have to make, how to manage their finances, how to have a healthy lifestyle. This experience also gives them an opportunity to make informed decisions about present and future vocational goals.

Planning for Adult Life staff, in constant partnership and collaboration with the staff of Union Township School District will provide training, assistance, and counsel to the students and their parents/guardians in aforementioned core areas. These presentations will be held in several locations (TBD) throughout the region in partnership with Communities Helping Others in Creating Effective Solutions. (CHOICES)

The program has six goals for the students and families:

1. Students and their families will develop appropriate and effective transition plans that address their specific needs to successfully transition to adult life
2. Students and their families will be able to effectively navigate service systems and access benefits and supports in all core areas.
3. Students and their families will effectively engage with and access support and service systems

We especially encourage students to attend and participate in the hand on experience. Families will learn about the world of employment, including career exploration, how to access services and supports in the adult service system, guardianship matters, financial issues etc...
