

TOWNSHIP OF UNION PUBLIC SCHOOLS

Social Studies Grade 1

**Curriculum Guide
Updated June 18, 2019**

Mission Statement

The mission of the Township of Union Public Schools is to build on the foundations of honesty, excellence, integrity, strong family, and community partnerships. We promote a supportive learning environment where every student is challenged, inspired, empowered, and respected as diverse learners. Through cultivation of students' intellectual curiosity, skills and knowledge, our students can achieve academically and socially, and contribute as responsible and productive citizens of our global community.

Philosophy Statement

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

Course Description

The grade one social studies curriculum is based on the New Jersey Student Learning Standards for Social Studies. The learning objectives serve as a framework of the social studies content and are the foundation for the course. These objectives state what content and processes students will be able to do at the conclusion of their social studies experience. Higher-level thinking processes have been incorporated into the objectives. In addition, lessons in friendship, respect, and tolerance have been included in conjunction with NJSA Holocaust/Genocide Education and the NJSA Amistad Curriculum. Teachers are encouraged to go beyond the standards and select instructional strategies and assessment methods appropriate for their students.

Curriculum Units/Pacing Guide

Unit # / Title	Number of Days
Unit 1: Culture	36
Unit 2: Geography	36
Unit 3: History	36
Unit 4: Economics	36
Unit 5: Citizenship	36

Unit Standards Overview

6.1 U.S. History: America in the World All students will acquire the knowledge and skills to think analytically about how past and present interactions of people, cultures, and the environment shape the American heritage. Such knowledge and skills enable students to make informed decisions that reflect fundamental rights and core democratic values as productive citizens in local, national, and global communities.

6.2 World History/Global Studies All students will acquire the knowledge and skills to think analytically and systematically about how past interactions of people, cultures, and the environment affect issues across time and cultures. Such knowledge and skills enable students to make informed decisions as socially and ethically responsible world citizens in the 21st century.

6.3 Active Citizenship in the 21st Century All students will acquire the skills needed to be active, informed citizens who value diversity and promote cultural understanding by working collaboratively to address the challenges that are inherent in living in an interconnected world.
